### FORMALITIES LETTER

## NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

*Filing Date Granted*

### **Items Required To Avoid Abandonment:**

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- The oath or declaration is missing.

*A properly signed oath or declaration in compliance with 37 CFR 1.63, identifying the application by the above Application Number and Filing Date, is required.*

*Note: If a petition under 37 CFR 1.47 is being filed, an oath or declaration in compliance with 37 CFR 1.63 signed by all available joint inventors, or if no inventor is available by a party with sufficient proprietary interest, is required.*

The application is informal since it does not comply with the regulations for the reason(s) indicated below.

The required item(s) identified below must be timely submitted to avoid abandonment:

- A substitute specification in compliance with 37 CFR 1.52, 1.121(b)(3), and 1.125, is required. The substitute specification must be submitted with markings and be accompanied by a clean version (without markings) as set forth in 37 CFR 1.125(c) and a statement that the substitute specification contains no new matter (see 37 CFR 1.125(b)). The specification, claims, and/or abstract page(s) submitted is not acceptable and cannot be scanned or properly stored because:

- The claims and/or abstract contain drawings or flow diagrams on pages **Abstract**. Drawings or flow diagrams are not permitted to be contained in the claims or abstract. See 37 CFR 1.58(a). Drawings and flow diagrams must be submitted separately in accordance with 37 CFR 1.84.

If the drawings or flow diagrams are contained in the claims, applicant must file:

- (1) an amendment to the claims in compliance with 37 CFR 1.121 (deleting the drawings or flow diagrams); and
- (2) new drawings in compliance with 37 CFR 1.84 and 1.121(d) (if applicant wants to include the drawings or flow diagrams in the application).

If the drawings or flow diagrams are contained in the abstract, applicant must file:

- (1) a replacement abstract commencing on a separate sheet in compliance with 37 CFR 1.72(b) and 1.121 (deleting the drawings or flow diagrams); and
- (2) new drawings in compliance with 37 CFR 1.84 and 1.121(d) (if applicant wants to include the drawings or flow diagrams in the application).

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.
